You have the right to direct the investment of retirement plan contributions among the investment options offered under the retirement plan. Properly investing retirement contributions is important for planning your future retirement income. You should consider your investment direction decision carefully. This notice provides information regarding where contributions submitted to the retirement plan for your benefit will be directed in the absence of your investment election. You may direct the investment of the retirement funds by visiting [www.principal.com](http://www.principal.com).

## Automatic Enrollment

This retirement plan includes an automatic contribution arrangement that applies to new participants or re-hired participants as they enter the plan. If you are a new participant, you will be automatically enrolled in the retirement plan, meaning 3% of your pay will be deducted from paychecks and contributed to the retirement plan on your behalf unless you elect a different salary deferral percentage. If you are currently eligible for the plan, you will maintain your current salary deferral amount unless you elect a different salary deferral percentage.

If you do not wish to be automatically enrolled, you may elect not to defer or to defer another percentage. If you affirmatively elect to make salary deferral contributions, or if you are automatically enrolled, and you do not provide an investment direction as to how contributions made on your behalf should be directed, then the contributions will be directed to the plan's investment option default discussed below.

## Investment Option Default

If you have not provided complete, up-to-date direction as to how the account set up for you under the retirement plan is to be invested, the account will be invested under automatic rules. You need to understand these rules and make sure that you are comfortable with them or that you take action to direct the investment of the account according to your preferences.

These rules state that, if we do not have complete investment directions from you, the retirement funds in the account and new contributions for which we do not have direction will be directed to T Rowe Price Advisor Share Class, sub advised by T. Rowe Price Associates, Inc.. Your directions must be received at the Corporate Center of Principal Life Insurance Company.

See the table below to identify the T Rowe Price Advisor Share Class that will apply based on your current age and when you will reach the plan's normal retirement date. For information on how you may make an investment direction election, please see the "Right to Direct" section below.

Normal Retirement Date	T Rowe Price Advisor Share Class
2014 or earlier	T. Rowe Price Retirement 2010 Advisor Fund
Between 2015 and end of 2024	T. Rowe Price Retirement 2020 Advisor Fund
Between 2025 and end of 2034	T. Rowe Price Retirement 2030 Advisor Fund
Between 2035 and end of 2044	T. Rowe Price Retirement 2040 Advisor Fund
Between 2045 and end of 2054	T. Rowe Price Retirement 2050 Advisor Fund
2055 or later	T. Rowe Price Retirement 2060 Advisor Fund

Note: Neither the principal nor the underlying assets of the T Rowe Price Advisor Share Class are guaranteed at any time, including the target date. Investment risk remains at all times.

To learn about the retirement plan's default investment option and related objectives, risk and return characteristics, and associated fees and expenses, please see the following description and attached investment information or Investment Option Summary included in the enrollment workbook for the T Rowe Price Advisor Share Class that will apply.

Target Date portfolios are managed toward a particular target date, or the approximate date the investor is expected to start withdrawing money from the portfolio. As each target date portfolio approaches its target date, the investment mix becomes more conservative by increasing exposure to generally more conservative investments and reducing exposure to typically more aggressive investments. Neither the principal nor the underlying assets of target date portfolios are guaranteed at any time, including the target date. Investment risk remains at all times. Neither asset allocation nor diversification can assure a profit or protect against a loss in down markets. Be sure to see the relevant prospectus or offering document for full discussion of a target date investment option including determination of when the portfolio achieves its most conservative allocation.

### **Right to Direct**

If you do not want retirement funds to be directed as indicated above, then you may elect to direct the retirement funds to investment options under the retirement plan by visiting The Principal Web site at [www.principal.com](http://www.principal.com) and logging into the account or by calling 1-800-547-7754.

You may make changes to your investment direction as allowed under the retirement plan. This includes transferring any contributions from the applicable investment option default to another investment option. Transfers out of the investment option default are not subject to restrictions, fees or expenses<sup>1</sup> for a 90-day period, unless the fees and expenses are charged on an ongoing basis for the operation of the investment<sup>2</sup>. See the attached investment information for information regarding restrictions, fees or expenses after the 90-day period.

### **Additional Information**

For additional information about the investment option default or other investment alternatives under the plan please visit [www.principal.com](http://www.principal.com) or contact:
